Tech Pack — Nardwuar FC

“Deep Cut” Home Kit

A host-nation home kit in Vancouver-tartan red that’s secretly a walking archive — an ultra-faint all-over collage of 7” records, photocopied flyers and interview microtext. Homage to Nardwuar the Human Serviette. *Research is the protest; the receipt is the weapon.*

Style No. NW-01

Home / red colorway

Designer: Kris Krüg

June 20, 2026

HOMAGE, NOT LIKENESS — hard constraint. No face anywhere on the garment or in renders; the homage is carried by objects (tam, mic, 7” records, zines). Nardwuar’s name is not commercialized. Competition exhibition is clear; any move toward sale/merch requires Nardwuar’s blessing first. This pack documents the **Home (red)** colorway — the kit also ships as **black (Away)** and **white + gold-foil (Limited)**, sharing one block and differing only in ground + accent.

Rule for this collection: any factual claim on the garment carries its source on the hem in kit-maker spec type. The receipts are part of the garment, not a caption beside it. Nothing unverified ships.

6 Print Method Notes

- **All-over (tartan check + records/flyers collage):** dye-sublimation, edge-to-edge, before cut-and-sew — the only method for fine edge-to-edge detail dyed into poly with zero hand.
- **Fine micro-type** (hem citation, “DOOT DOOLA” neck tape, the “97” rectangles): sublimated vector ~6–8 pt. The woven texture is the true limiter, not the printer — **proof on the real rPET blank**. Fallback: fine screen / high-density heat transfer.
- **Name / number:** sublimated (not applied) so the ransom-note collage stays intact and there’s nothing to peel or crack.
- **“DEEP RESEARCH” sleeve patch:** woven, or hybrid sublimated-twill for a raised retro feel.
- **No metallic on the red Home** — the gold reads as matte “counterfeit-official.” The white Limited colorway uses gold-foil; confirm Formme can run foil / metallic HTV.

7 Labelling, Hangtag & Packaging

- **Main woven label (inner neck):** MADE ON · style no. NW-01 · size · “made on unceded x̣ṃəθḳẉəỵəm (Musqueam), Sḳẉx̣ẉú7mesh (Squamish), səliłẉətał (Tsleil-Waututh) territory.”
- **Care label:** tagless heat-transfer. Build one dual-market label — bilingual EN/FR fibre content + % by weight (Canada), US-compliant care + ASTM D5489 symbols, country of origin, a CA Identification Number + RN. One line of the citation continued, so even the legally-required label carries the message.
- **No real FIFA / club / sponsor marks** — evoke the grammar, never reproduce a mark. The FIFA “Fair Play” badge is re-spoofed as “DEEP RESEARCH.”
- **Hangtag = the manifesto card.** Side A: the MADE ON statement (short form). Side B: this kit’s receipts + a QR to a DTES / land-back org. Recycled/FSC card, soy ink, jute string, no lamination.
- **Packaging:** minimal, recycled, unbranded — the anti-merch finish.

8 Measurement Spec — Point of Measure

Base size **M**. Circumferences (chest, hem, neck, waist, hip, thigh, leg opening) are **½-measures — garment laid flat, x2 for the body**. Lengths are direct. Lead unit cm. Rows marked ^c are interpolated to standard regular-fit ratios — **confirm on Formme's block + first sample**. Full dual-unit grid + grading in tech-pack-spec.md §2.

Fitting rule for the chart: **self-select by chest (jersey) / waist (shorts); if between sizes, size up**. Graphic-led kit — the block stays standard; all design work is on the surface.

9 Construction Notes

- Standard football-jersey construction; no structural changes. **Silhouette: short-sleeve, set-in** — the all-over collage + tartan check want an unbroken canvas (the collection's signature ¾ raglan is dropped here so the print runs uninterrupted).
- Seams: overlock (serger) panel seaming, 5-thread safety on load-bearing side seams; **coverstitch** hems & openings; **flatlock** at skin-contact zones (underarm, inner thigh); **bartack** stress points. Tonal thread.
- Neckline: crew, self-fabric bound (the check wraps edge-to-edge); inside collar reads "DOOT DOOLA DOOT DOO."
- Labels: tagless heat-transfer + woven flag only (no scratchy print-on-neck).
- All design intent is in **surface graphic + finish** — fully manufacturable in one production pass.

10 Judging-Deliverable & Pre-Production Checklist

- ☒ Front + back flat with numbered callouts (Section 2)
- ☒ Colorway with hex (Section 3)
- ☒ Artwork & placement sheet with citations (Section 5)
- ☒ One-line concept + manifesto card text (Sections 1, 7)
- ☒ Print method specified (Section 6)
- ☒ Measurement spec / POM (Section 8)

Formme pre-production [confirm] — hand to the maker before the run:

- Lab-dip approves the five colorway hexes on the rPET base; gsm verified on strike-off; sublimation hand-feel on the optical-bright base.
- All microtext legible at print resolution; the “97” rectangles hold at distance.
- Crest/patch contain **no face**; wordmarks spell “VANCOUVER” / “NARDWUAR!!” exactly.
- Neck-label territorial acknowledgement present; one dual-market care/legal label (bilingual EN/FR fibre %, CA number + RN, country of origin, US-compliant care + ASTM D5489 symbols).
- Confirm the league’s equipment regs if non-FIFA; else FIFA cm ranges default.
