

BOOTH AND

BCAI-01 COMMUNITY MATCH KIT

JERSEY + SHORTS | FACTORY TECH PACK | REVISION A

ISSUED 2026-07-21 | DESIGN LOCK 2026-07-26 | MANUFACTURE IN INDIA

DESIGN STATEMENT

A team uniform for people building the future while retaining the right to question it. The plus sign joins productive tensions: curious + critical, local + future, individual + collective, technology + public interest.

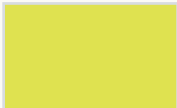

LOCKED DIRECTION

- Custom square-grid vector alphabet
- Dark stock body with two signal colours
- Large identifier front; organizing idea back
- No crest, tartan, portrait, sponsor, number, or all-over pattern
- Artwork geometry is font-free and fully vector

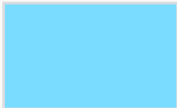

WORKING COLOUR STANDARDS

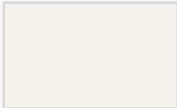

BC Night
#0A0D12 | PANTONE Black 6 C / darkest available matte recycled fabric

Signal Lime
#DFE250 | PANTONE 387 C

Coastal Ice
#7ADCFF | PANTONE 2905 C

Cloud Bone
#F4F2EA | Warm white; vendor match to digital target

PHYSICAL APPROVAL CONTROLS

Digital values are working targets, not bulk approval. Return fabric swatch, lab dip, ink drawdowns, and thread card. Bulk colour is approved only against the accepted physical standard under D65 light.

JERSEY FRONT

JERSEY BACK

SHORTS FRONT

SILHOUETTE

Unisex relaxed athletic fit. Set-in sleeve. Crew neck. Matte near-black body. Matching pull-on short.

ID	LOCATION	METHOD	ART SIZE	POSITION
P1	Front centre	Two-colour screen print	280 W x 82 H	Top of artwork 165 mm below high-point shoulder; centred on body centre-front
P3	Left sleeve	One-colour screen print	70 W x 18 H	Centred on outside sleeve; bottom of artwork 55 mm above finished sleeve hem
P4	Right sleeve	One-colour screen print	80 W x 18 H	Centred on outside sleeve; bottom of artwork 55 mm above finished sleeve hem
P5	Inside back neck	Soft heat transfer or screen print after durability test	110 W x 32 H	Top of artwork 12 mm below back neck seam; centred on centre-back

P1 TOP: 165 BELOW HPS

PLACEMENT CONTROL

Dimensions are specified on factory size M. Factory must return a marked graded placement map before production. Keep artwork visually centred on the finished panel, not merely between raw seam allowances. Maintain +/- 5 mm placement and +/- 2 mm artwork-size tolerance unless the table states tighter control.

 P2 BACK CENTRE**240 W x 260 H****Method:** Two-colour screen print**Position:** Top of artwork 145 mm below back neck seam; centred on body centre-back**Tolerance:** +/- 5 mm placement; +/- 2 mm artwork size**ARTWORK INTEGRITY**

Preserve square corners and the original gaps between every cell. Do not condense, redraw, add outlines, add trapping, or substitute type. The vector PDF and SVG are the production masters.

FRONT

ID	LOCATION	METHOD	SIZE	POSITION
P6	Right front leg	Two-colour direct embroidery	85 W x 28 H	Top of artwork 85 mm below waistband seam; centre front leg panel
P7	Left front leg	Two-colour screen print	90 W x 22 H	Top of artwork 85 mm below waistband seam; centre front leg panel

CONSTRUCTION NOTES

- 40 mm enclosed elastic waistband with internal matching drawcord
- Reinforce drawcord exit and crotch stress points
- Match jersey fabric colour and matte hand feel
- No side stripe, all-over print, player name, or number
- Return embroidery sew-out before sample production

DECORATION CONTROLS

- Use polyester-safe low-cure silicone or dye-blocking screen ink proven on the selected fabric
- Minimum printed cell size is 1.4 mm; preserve square corners and original spacing
- No gradients, halftones, distress texture, drop shadows, or unapproved trapping
- Embroidery must preserve the square-grid geometry without satin-stitch bridging between cells
- Return one print strike-off and one embroidery sew-out before pre-production sample

PRODUCTION FILES

Each placement is supplied as an actual-size vector PDF and SVG. SVG geometry contains no text or linked images. PDF pages match the stated finished artwork dimensions. Composite colours are flat spot-colour targets for screen separation.

COMPONENT	SPECIFICATION	COLOUR	APPROVAL GATE
Jersey body	180-200 gsm recycled polyester birdseye or interlock, matte face, moisture management, anti-pilling finish	BC Night	Factory proposes best documented recycled option within budget and supplies swatch
Collar	Self-fabric or matching rib crew neck, recovery tested, no contrast stripe	BC Night	Confirm on pre-production sample
Shorts body	180-200 gsm recycled polyester interlock, matte face, elastic waistband with internal drawcord	BC Night	Match jersey body and hand feel
Sewing thread	100 percent polyester core-spun thread, colourfast and matched to body	BC Night	No visible contrast stitching

CONSTRUCTION

- Set-in short sleeve with clean athletic armhole
 - Crew neck with shoulder-to-shoulder internal binding
 - Four-thread overlock internal seams with coverstitch hems
 - Side seams permitted; keep print clear of seam allowances
- Shorts with 40 mm enclosed elastic waistband and internal matching drawcord
 - Reinforce drawcord exit and crotch stress points
 - Remove loose threads; no visible puckering, needle damage, shine, or dye migration

Preferred: documented GRS or ocean-bound recycled input. Do not print a sustainability claim unless the factory provides verifiable chain-of-custody evidence for this exact production lot.

 FIT INTENT

Unisex relaxed athletic fit on factory block. Return factory size chart and one size M pre-production sample before bulk.

FACTORY RETURN: SIZE CHART

-  Finished garment POM for XS through 3XL
-  Chest width at 25 mm below armhole
-  Body length from high-point shoulder
-  Shoulder, sleeve length, bicep, and opening
-  Short waist relaxed/stretched, rise, inseam, outseam, and leg opening
-  Per-POM tolerances and grading increments

 CARE PROPOSAL

Machine wash cold with like colours, gentle cycle. Do not bleach. Hang dry. Do not iron decoration. Do not dry clean. Factory must validate against selected materials and decoration before label production.

LABEL CONTENT

Brand and style, country of origin, fibre content, care symbols and text, size, and legally required manufacturer/importer details. Factory verifies content before print. Use a soft transfer or low-profile label with no scratchy edge.

SIZE MIX

Do not infer quantities by size. Buyer returns the wearer size list after reviewing the factory chart and size M sample. No bulk cutting follows from an estimated mix.

REQUIRED FACTORY RETURNS

- 1

Itemized quote for five prize jerseys and for approximately 20 jersey-and-short sets, with shorts shown separately
- 2

Factory size chart, grading rules, measurement tolerance, and proposed size M sample measurements
- 3

Fabric composition, weight, mill, recycled-content evidence, available certifications, swatch, and lab dip
- 4

Screen ink system, colour drawdowns, dye-migration test, and wash-test method
- 5

Embroidery thread references and physical sew-out
- 6

Marked placement proof for every size before screens or embroidery files are released
- 7

One complete size M pre-production set for fit, colour, placement, hand-feel, and workmanship approval
- 8

Bulk production schedule, quality-control checkpoints, packing list, and shipping terms

BULK QUALITY GATES

GATE	ACCEPTANCE
Colour	approved physical standard under D65 light; no visible panel-to-panel shade variation
Print	full cure, solid coverage, no dye migration, cracking, pinholes, or offset
Embroidery	clean registration, no puckering, loose ends, or backing visible outside artwork
Measurements	within factory-agreed tolerance against approved size chart
Wash	appearance and dimensional stability approved after three care-label wash cycles
Inspection	factory final inspection report and photos before balance payment or shipment
