5. ARTWORK & PLACEMENT *(the heart of this kit)*

This is where the protest lives. Every graphic gets a position, a size, and **its citation**. The citation printed in kit-maker spec type is the whole concept.

#	Element	Placement	Size / position	Artwork detail	Citation (if any)
1	Crest	Left chest	80mm tall, 90mm from shoulder seam	[the subverted crest – what replaces the federation badge]	—
2	Sponsor bar	Centre chest	220mm wide, centred	[the fake sponsor / counter-message lockup]	—
3	Maker mark	Right chest	40mm	[subverted kit-maker logo]	—
4	Neck tape	Inner collar	woven, full width	[the woven tag line]	—
5	Nameplate	Upper back	60mm caps, arched	[what replaces the player name]	—
6	Number	Centre back	250mm	[what replaces the number]	—
7	Lower-back line	Above hem, back	12mm caps	[the back line]	[source]
8	Hem citation	Front hem, inside-out readable	8mm mono caps	The data, printed where fibre-content/wash care goes	[exact stat + source]

Rule for this collection: any factual claim on the garment carries its source on the hem in kit-maker spec type. The receipts are part of the garment, not a caption beside it.

6. PRINT METHOD NOTES

- Full-body / allover graphics (banknote engraving, ledger lines, ToS text): **dye-sublimation** before cut-and-sew for edge-to-edge coverage.
 - Fine micro-type (hem citations, spec-type lines): confirm minimum legible point size with Formme; if sublimation can't hold it, spec **fine screen or high-density heat transfer**.
 - Redaction bars / matte-on-matte effects: spec contrasting **finish** (matte body vs. gloss bar), not just contrasting colour.
 - Metallic gold (if Kit 03): confirm Formme can run metallic; if not, substitute a warm ochre that reads gold at distance.
-

7. LABELLING, HANGTAG & PACKAGING

- **Main woven label (inner neck):** MADE ON · style no. · size · "made on unceded x^wməθk^wəyəm, Skwxwú7mesh, səliwətał territory."
 - **Care label:** standard wash care + one line of the citation continued, so even the legally-required label carries the message.
 - **Hangtag = the manifesto card.** One side: the MADE ON statement (short form). Other side: the receipts for this specific kit + a QR to a DTES / land-back / relevant org.
 - **Packaging:** minimal, recycled, unbranded — the anti-merch finish.

8. MEASUREMENT SPEC (Point of Measure — fill at sample)

POM	XS	S	M	L	XL	XXL	Tol.

Body length (HPS to hem)							±1cm
Shoulder width							±0.5cm
Sleeve length							±0.5cm

Use Formme's base block measurements; this kit is graphic-led, so the block stays standard. The design work is all surface.

9. CONSTRUCTION NOTES

- Standard football-jersey construction; no structural changes.
 - Flatlock or coverstitch seams, tonal thread.
 - Set-in or raglan sleeve per Formme's standard block.
 - Heat-seal or woven labels only (no scratchy print-on-neck).
 - All design intent is in **surface graphic + finish contrast**, which keeps it fully manufacturable in one production pass.
