CONCEPT / MOOD AREA

Sketch, collage, or note your initial concept. What's the story behind your jersey?

The World Cup arrives as spectacle; this kit answers with the **archive**. From across the pitch it reads as a host-nation home shirt — Vancouver-tartan red, bold wordmark, crest, classic check. Up close it's a walking archive: an ultra-faint all-over collage of 7" records, photocopied flyers and interview microtext.

Homage to **Nardwuar the Human Serviette** — Vancouver's relentless interviewer and researcher. *Research is the protest; the receipt is the weapon.*

HOMAGE, NOT LIKENESS. No face anywhere — the homage is carried by objects (tam, mic, records, zines). Three colorways share one block: **red Home**, black Away, white + gold-foil Limited.

FRONT AND BACK VIEW

Draw the front and back of your jersey — colour, graphics, collar, number placement, etc.

Ocean-bound recycled-PET interlock, dye-sublimated edge-to-edge. Crew, self-fabric-bound collar. Set-in short sleeve (clean canvas for the all-over collage). Name & number sublimated — zero hand.

DETAILS - 01

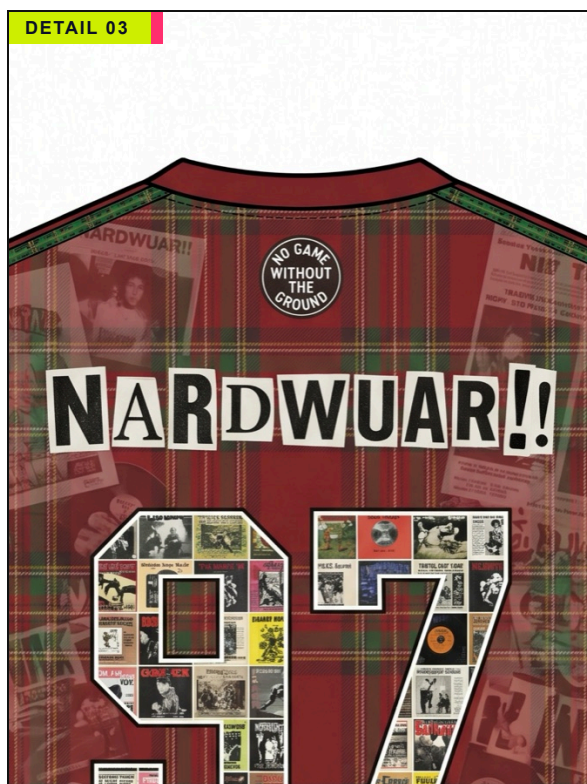

Zoom into specific areas - a collar shape, sleeve stripe, graphic motif, hem detail, texture, or pattern.

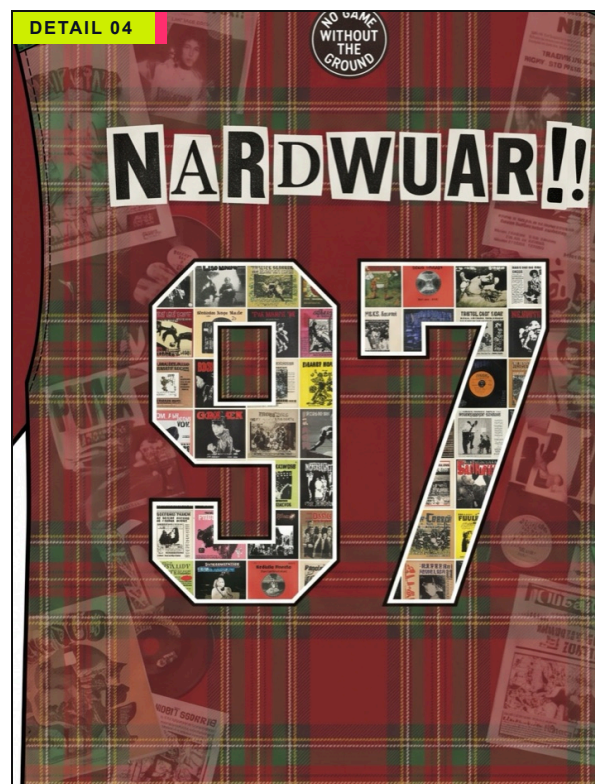

Collage crest — mic + 7" records on a host-city shield (no face)

"WHO BENEFITS? WHO PAYS?" counter-message sponsor bar

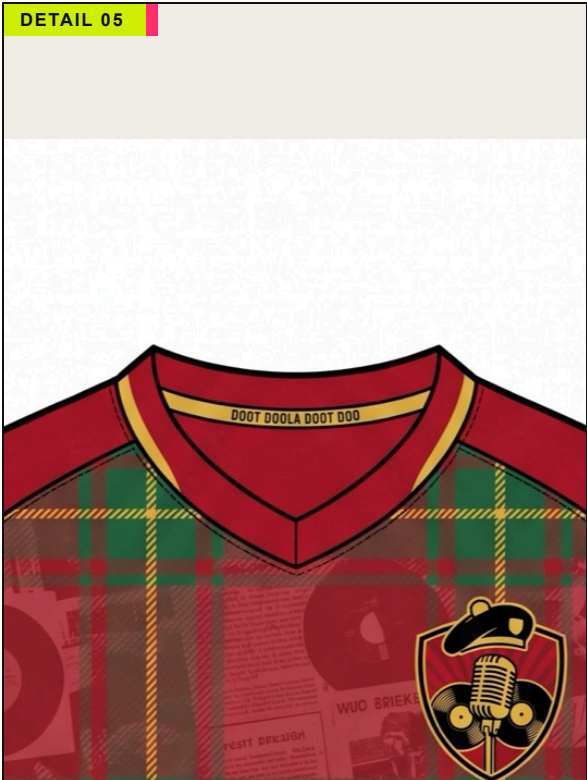

"NARDWUAR!!" nameplate — ransom-note cut-and-paste

"97" built from record-sleeve / zine-panel rectangles

DETAILS - 02

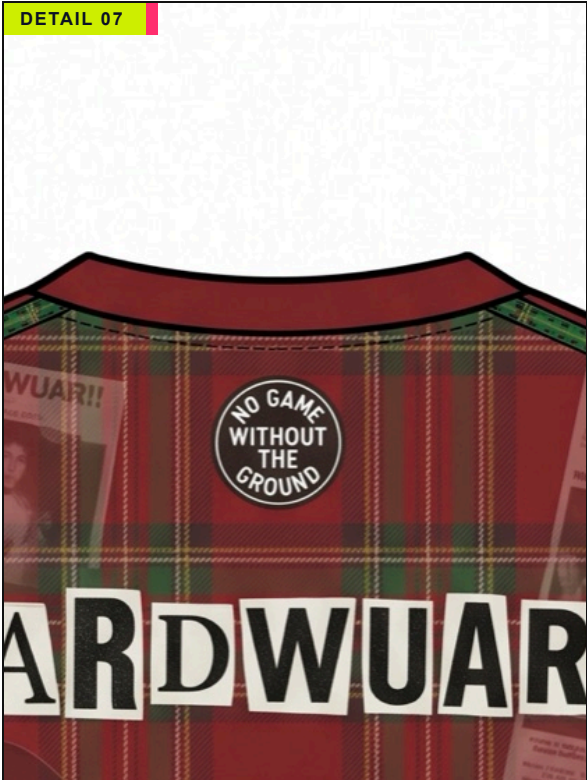

Keep going - close-ups, alternative ideas, or variations you want to explore.

Collar / neck tape — inside reads “DOOT DOOLA DOOT DOO”

“VANCOUVER” host-nation wordmark + tartan check ground

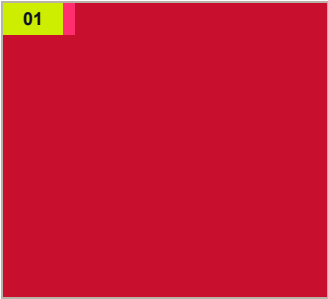

Back-neck badge — “NO GAME WITHOUT THE GROUND”

On-body — the kit in the round (Home / red)

COLOUR STORY

Fill or shade each swatch. Add a name (e.g. ‘Ocean Dusk’), a Pantone code if you have one, and where that colour appears on the jersey.

MATERIALS - 01

Describe what each part of your jersey is made from or how you imagine it. 'Soft mesh', 'ribbed knit', 'smooth performance fabric' - no technical terms needed.

COMPONENT	MATERIAL / DESCRIPTION / NOTES
Main body	Smooth, lightweight knit made from recycled ocean-bound plastic — soft, breathable, holds bright edge-to-edge print (~150 gsm). “Made on ocean plastic.”
Shorts	Same recycled performance knit, a touch heavier so it's tough and never see-through (~180 gsm).
Collar & cuffs	Bound in the same fabric so the tartan check runs right to the edge (or a soft ribbed trim in tartan green). Inside the collar reads “DOOT DOOLA DOOT DOO”.
Waistband	Stretchy elastic with an inside drawcord.

MATERIALS - 02

Describe what each part of your jersey is made from or how you imagine it. 'Soft mesh', 'ribbed knit', 'smooth performance fabric' - no technical terms needed.

COMPONENT	MATERIAL / DESCRIPTION / NOTES
Graphics	Printed into the fabric (dye-sublimation) so there's nothing to peel or crack — the tartan, the record-and-flyer collage and the name & number are all printed in.
Hem detail	A tiny “receipt” printed where the wash-care label normally goes — the cited fact, worn on the garment.
Labels & hang-tag	Soft printed neck label (no scratchy tag) carrying the land acknowledgement, plus a recycled hang-tag that doubles as the story card.
Sleeve badge	A woven “DEEP RESEARCH” patch on the right sleeve (printed alternative).

Pro bill of materials, decoration methods and name/number standard.

Component	Material / spec	Notes
Main body (jersey)	Ocean-bound recycled-PET interlock, ~150 gsm, GRS + OEKO-TEX 100, optical-bright, fibre-integrated wicking — sublimation-ready	“Made on ocean plastic.” Confirm Formme stock + mill
Shorts body	Ocean-bound recycled-PET interlock, ~180 gsm, GRS + OEKO-TEX 100	Heavier for opacity + abrasion
Collar / cuffs	Self-fabric bound (check wraps edge-to-edge) or 1×1 poly/spandex rib, tartan green	Inner collar prints “DOOT DOOLA DOOT DOO”
Waistband	Elastic + internal drawcord	Upgrade: jacquard elastic w/ MADE ON wordmark
All-over print	Dye-sublimation, edge-to-edge, before cut-and-sew	300 DPI at size; 0.25" bleed
Sleeve patch	“DEEP RESEARCH” — woven or hybrid sublimated-twill	Right sleeve
Name / number	Sublimated (ransom-note collage; zero hand)	FIFA-safe sizing
Hem micro-type	Sublimated, vector, sans-serif, ~6–8 pt	Proof on the real blank
Neck label / hangtag	Woven flag + tagless heat-transfer; recycled FSC manifesto hangtag	Territorial acknowledgement; soy ink

Decoration: bake everything possible into one sublimation file (all-over check + records/flyers collage + crest + fixed sponsor + name/number + hem micro-type); break out to woven / hybrid sublimated-twill only for the raised “DEEP RESEARCH” patch. **Name & number (FIFA defaults):** back number 25–35 cm, stroke 3–5 cm; back name 5–7.5 cm, ≥4 cm above number; sublimated permanently (no Velcro), Latin chars, legible at distance. Confirm a non-FIFA league’s regs if applicable.

Labels & legal

Woven neck label: MADE ON · NW-01 · size · “made on unceded xʷməθkʷəy̓əm (Musqueam), Skwxwú7mesh (Squamish), səliłwətał (Tsleil-Waututh) territory.” One dual-market care label (bilingual EN/FR fibre %, CA number + RN, country of origin, US-compliant care + ASTM D5489 symbols). No real FIFA / club / sponsor marks — evoke, never reproduce.

Construction

Overlock panel seams (5-thread safety on side seams); coverstitch hems; flatlock at skin-contact zones; bartack stress points; tonal thread. Graphic-led — block stays standard; one production pass.

Pre-production checklist

- ☐ Lab-dip the 5 hexes on rPET; gsm on strike-off; sublimation hand-feel.
- ☐ Microtext legible; the “97” rectangles hold at distance.
- ☐ Crest/patch contain **no face**; wordmarks spell “VANCOUVER” / “NARDWUAR!!” exactly.
- ☐ Neck-label acknowledgement present; dual-market care/legal label built.
- ☐ Confirm fluo / foil feasibility for Pump & Limited variants.

Ethics (hard constraint)

Homage, not likeness — no face on garment or in renders; Nardwuar’s name not commercialized. Exhibition is clear; any move toward sale/merch needs his blessing first.
